

Happenings in MBA department

Period: 18th July 2020 to 25th July 2020

NIST is going to conduct online internal examination for 4th and 2nd semester MBA students starting from 27th July 2020. The exam schedule has been shared with the students and students have been suggested to register for the exam as soon as possible.

On the training and development front, a webinar on “Investment Awareness program” is going to be conducted on 28th July 2020 for the students and staff of NIST.

From summer internship point of view, some of the 1st year MBA students have already completed their internship and others are in progress. Students’ progress on summer project is satisfactory and the institute strongly believes that every single student will complete the summer project smoothly on time despite the ongoing COVID-19 crisis.
