

Webinar

Organized by NIST wherein
Industry Veteran, **Sandeep Rambhatla** will interact with
NIST MBA Students

on

12th August, 2020

As a part of industry-academia collaboration, the Department of Management, NIST is organizing a webinar for MBA students on 12th August, 2020. Mr. Sandeep Rambhatla, an experienced (15 years of industry experience and extensive expertise in the Banking and Insurance domain) corporate professional and industry veteran will interact with our students on 12th August 2020. **Sandeep has a prolific career with stints as AVP in HSBC, AGM in Cholamandalam, Business development manager in TCS and Expertus Infotech, Consultant in Cisco and Citi financial. He is also a visiting faculty at National institute of Design, Bangalore. He is an entrepreneur as well and he is the founder CEO of a Bangalore based startup that designs simulation based learning games for corporate and academic training.** Just like Capstone and Enparadigm, one of his games simulates the real life corporate environment in a virtual platform and gives the participants a risk free platform to exercise their management. His games

have been played by IIM Bangalore, Christ and many other eminent B-schools in India. Mr. Sandeep will be with us and guide the students on current industry trends, career opportunities and skill sets needed to succeed in the corporate journey.

If it goes well he'll give license to play his business simulation game where the students can experience how it feels like to run a company and be an entrepreneur. Overall, the session is going to be fun and informative. Mr. Sandeep is a very open-minded, free-thinking and friendly person who understands the challenges and struggles of a student. So, do join the webinar session at 11am on 12th August 2020. Head of the department, Dr. Akankshya Patnaik, with Ms. Rojalin Patri will coordinate the program as per this schedule:
