The institute is headed by Director, Prof Sangram Mudali and boasts of having more than 3000 students on its roll in various disciplines of M.Tec. ,B.Tech., MBA,MCA.

Program Objectives

A research life at beginning is always full of confusion in choosing a topic to design research tools. Various field of social sciences are also having varied designs. The basic aim of the workshop is to help young faculty members to gain substantial idea and software tools for their use in field of research in social sciences. Focus will also be laid upon qualitative and quantitative research.

Capacity building is not restricted to subjective training rather it aims at enhancing the analytical skills for interpretation and problem solving. Young researchers are required to understand the subject as well as its analysis for multi-dimensional applications. A good network of researchers also helps each other to hone their skills later on.
